**DISTINGUISHING FEATURES OF THE CLASS:** The work involves the responsibility of conducting research in the procurement of Federal, State, County and private grant funding designed to support and enhance the quality of the educational services provided by Ulster County BOCES to component school districts. An incumbent is responsible for identifying potential funding sources, matching them with appropriate educational needs, formulating necessary procedures for the writing, timely and accurate review, and submission of proposals. Upon award of grants, the employee notifies the responsible parties of the contract procedures and the approved budget parameters. Extensive contacts are established and maintained with Federal, State, County and private agency personnel as well as school district officials. The work is performed under the general supervision of the District Superintendent of BOCES or their designee. An incumbent in this position is required to exercise wide latitude of personal judgment in conformance with policies, procedures and techniques involved in obtaining grant funding. **SUBJECT OF EXAMINATION:** Written test will cover knowledge, skills, and/or abilities in such areas as:

**Preparing written material**

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

**Understanding and interpreting written material**

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

**Understanding and interpreting tabular material**

These questions test your ability to understand, analyze, and use the internal logic of data presented in tabular form. You may be asked to perform tasks such as completing tables, drawing conclusions from them, analyzing data trends or interrelationships, and revising or combining data sets. The concepts of rate, ratio, and proportion are tested. Mathematical operations are simple, and computational speed is not a major factor in the test. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will not be permitted to use the calculator function of your cell phone.

**Evaluating conclusions in light of known facts**

These questions will consist of a set of facts and a conclusion. You must decide if the conclusion is proved by the facts, disproved by the facts or if the facts are not sufficient to prove or disprove the conclusion. The questions will not be specific to a particular field.

The New York State Department of Civil Service has not prepared a test guide for this examination. However, candidates may find information in the publication 'General Guide to Written Tests' helpful in preparing for this test. This publication is available online at: <https://www.cs.ny.gov/testing/testguides.cfm>.

**CALCULATORS:** "Unless specifically prohibited, candidates are permitted to use NON-PROGRAMMABLE quiet, hand-held, solar or battery powered calculators. For eligible lists established after January 1, 2014, disabled veterans may be entitled to additional credits on a civil service examination. Every situation is different. If you have specific questions or concerns, please contact our office.
