DISTINGUISHING FEATURES OF THE CLASS: The work involves responsibility for highly complex account clerical duties. The work is carried out with the frequent exercise of independent judgment and involves performing and often planning and supervising complex bookkeeping activities of a major department. Work is performed under the general supervision of a higher level employee with wide leeway allowed determining the actions required to complete assignments. Supervision is normally exercised over the work of subordinate personnel. Does related work as required.

SUBJECT OF EXAMINATION: Written test will cover knowledge, skills, and/or abilities in such areas as:

Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

Fundamentals of account keeping and bookkeeping

These questions test for a knowledge of basic principles and practices of account keeping and bookkeeping. The questions test for recognizing account keeping and bookkeeping terms, concepts and relationships; recording financial transactions; and solving elementary problems in account keeping and bookkeeping.

Understanding and interpreting tabular material

These questions test your ability to understand, analyze, and use the internal logic of data presented in tabular form. You may be asked to perform tasks such as completing tables, drawing conclusions from them, analyzing data trends or interrelationships, and revising or combining data sets. The concepts of rate, ratio, and proportion are tested. Mathematical operations are simple, and computational speed is not a major factor in the test. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will not be permitted to use the calculator function of your cell phone.

Supervision

These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
