

**CHEMICAL DEPENDENCY SPECIALIST - CLINICAL SUPERVISOR -
CHILDREN'S SERVICES**

DISTINGUISHING FEATURES OF THE CLASS: This is a professional supervisory position in the Ulster County Mental Health Department primarily responsible for the supervision of clinical staff members in the provision of direct clinical services as well as direct delivery of ongoing therapeutic services to children and their families affected by substance abuse. Supervision is received from the Chemical Dependency Specialist Unit Leader or other clinical mental health professionals of a higher rank, with leeway for independent judgment. Does related work as required.

TYPICAL WORK ACTIVITIES: The typical work activities listed below, while providing representative examples of the variety of work assignments in the title do not describe any individual position. Incumbents in this title may perform some or all of the following, as well as other related activities not described.

Provides direct client treatment including individual, group and family counseling, individual and group psychotherapy and social work services;

Provides full case management services to clients;

Resolves staff problems and provides clinical supervision;

Evaluates and reports on staff clinical performance;

Consults with other agencies in areas where the employee has developed a specialty;

Establishes and maintains liaison with internal and external agency personnel in order to coordinate and maximize delivery of care;

Represents the department to other agencies as assigned;

Gives presentations and lectures on behavioral health issues and child and family treatment;

Gathers information on community needs in order to identify areas where services could best be focused;

Reviews case reports from subordinate clinicians, identifies problem areas and discusses it with clinician;

Assigns cases to staff;

Prepares reports of a narrative and statistical nature as well as general correspondence;

Receives in-service training and keeps abreast of new developments in the behavioral health field, especially concerning child and family treatment.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES, AND PERSONAL CHARACTERISTICS: Thorough knowledge, within the professional discipline of the incumbent, of the psychotherapeutic principles, methods, and practices used in treating children and their families affected by substance abuse; thorough knowledge of area behavioral health, medical, educational, legal, vocational and social service providers and other available community resources, and ability to effectively utilize these resources in an overall psychosocial approach to treating the client; working knowledge of developmental child and adolescent development; working knowledge of the principles and practices of supervision; ability to plan, direct, coordinate and evaluate the work of others; ability to establish and maintain a rapport with behavioral health clients and their families; ability to collect and evaluate information relative to the needs in the community for behavioral health services; ability to maintain records and prepare narrative reports, statistical reports and general correspondence; willingness to participate in and benefit from in-service training; willingness to keep abreast of new developments in the behavioral health field; sound professional judgment; tact; physical condition commensurate with the demands of the position.
