

## MUNICIPAL WORKER I

**DISTINGUISHING FEATURES OF THE CLASS:** The work involves responsibility for the performance of various routine Public Works activities. The work is carried out in accordance with established procedures and may involve, but is not limited to maintenance, construction and related work on streets, highways, water and sewer systems (including treatment plants), landfills, buildings, grounds, and parks. The work may involve snow removal. The class differs from that of Municipal Worker II in that Municipal Worker I is the entry level position in the Municipal Worker Series, whereas Municipal Worker II is at the second level and performs both semi-skilled and routine construction and maintenance work. Depending on assignment, work is performed under the general or direct supervision of a higher level employee. Supervision is not normally a function of the class. Does related work as required.

**TYPICAL WORK ACTIVITIES:** The typical work activities listed below, while providing representative examples of the variety of work assignments in the title do not describe any individual position. Incumbents in this title may perform some or all of the following, as well as other related activities not described.
