

MUNICIPAL WORKS SUPERVISOR

DISTINGUISHING FEATURES OF THE CLASS: The work involves responsibility for the supervision and performance of tasks related to various public works activities. The work is carried out in accordance with established procedures and may involve, but is not limited to, the supervision of employees engaged in maintenance, construction and related work on streets, highways, water and sewer systems (including treatment plants), landfills, solid waste transfer stations, buildings, grounds, and parks. The incumbent performs skilled, semi-skilled and routine construction and maintenance activities. The class differs from that of Municipal Worker III in that Municipal Works Supervisor is at a higher level and has supervisory responsibility. Work is performed under the general or direct supervision of a higher level employee with leeway allowed in the coordination of work assignments. Supervision is exercised over subordinate employees. Does related work as required.

TYPICAL WORK ACTIVITIES: The typical work activities listed below, while providing representative examples of the variety of work assignments in the title do not describe any individual position. Incumbents in this title may perform some or all of the following, as well as other related activities not described.
